

Asalaamu Alaykum Wa RahmatuAllahi Wa Barakatuhu

I am one of the teachers of the Teen Deen program. I am greatly honoured to have a class of beautiful girls. For Ramadan, the girls decided that it would be wonderful *ihsan* if we as a class raised funds for a cause as part of their community responsibility, in order to receive pleasure from Allah(swt).

The students collaborated and brainstormed a list of different causes on the board. Through consultation they concluded we would collectively raise funds for a water well in Indonesia.

This initiative was project managed by the students and their class captain who split into groups and allocated steps to achieve final target of money to be raised. Time management skills were an important application the students utilised as they realised they had only 2 weeks to meet their target.

The students then brainstormed a list of strategies that they would use to raise the funds. These are some of their creative strategies;

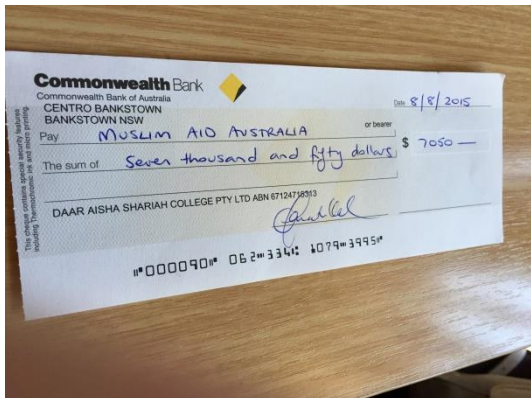

- Buying chocolate and selling it.
- Merchandising creative products photo frames and selling it.
- Personal contributions; Giving family massages for a donation.
- Raising awareness amongst their peers.
- Collaborating with family.

Through the Tawfiq of Allah and through the hard work of the girls we raised **\$7050!** It was an amount that surprised us all. A representative from Muslim Aid came into class last week and we presented her with the cheque (Sister Sabah). The money is going towards building 2 water systems in Indonesia. This will provide water for multiple villages, provides cattle water and reduce sickness insha'Allah.

We are so extremely proud of our girls. May Allah accept it from them and allow it to be a means of ongoing charity for them. We would also like to thank their families for their support with this project.
